Re: Police Department Monthly Report for June '14

Monthly Summary

Patrol Summary: The month of June brought about a leveling in calls for service from the previous few months. Running 800+ calls for service per month during the warmer months is typical of what this agency experiences. In total for June the police department answered 845 calls for service, of which 295 were traffic stops; we took 119 case reports and made 96 arrests. Being midway through the calendar year, department activity levels continue to keep pace with our previous record high years. At this point our calls for service and arrests are slightly above last year's numbers and our formal case investigations are nearly identical. Most crime categories reported are also tracking very similar to 2013. In looking for possible trends, it does appear that our drug and narcotics equipment violations continue to be on the rise, while theft and shoplifting offenses seem to be on the decline. A complete listing of comparison crime data between 2013 & 2014 is attached for your review.

Points of interest from Patrol this month:
Hit and run vehicle crashes are one of the most frustrating incidents that can happen to a motorist. This occurs when a driver strikes another vehicle or piece of property and then flees the scene to avoid taking responsibility for his/her actions. In many instances this leaves the victim with little recourse when it comes to getting vehicles or property repaired. WHPD takes these cases seriously and makes every effort to bring victims the resolution they desire. Recently one of these cases was handled very well by Officer Siepker. A young lady's car was struck while it was parked at the Sam's Club parking lot. The offender left the scene without leaving his information. Officer Siepker worked diligently to identify the offender through the use of witness information as well as video surveillance he obtained from Sam's Club. Officer Siepker eventually located the offender and the offender's vehicle. Through interrogation and examination of the vehicles involved, Officer Siepker developed probable cause and charged the offender with Hit and Run, Leaving the Scene of an Accident. This not only gave the victim a sense of resolution in a criminal matter, it allowed her to have the necessary information to facilitate getting her vehicle repaired (civil issue) without a significant, long-term out of pocket expense.

Canine (K-9) Unit
Officer Canada and K9 Argos had 8 deployments in June. Six deployments were narcotics related, one deployment was a track of a suicidal suspect, and the other deployment was for an apprehension of a felon during a narcotics take down. Here are some highlights:

- On June 6, 2014 Officer Canada and K9 Argos were called to assist the Urbandale Police department on a suspicious vehicle in a park. The occupants denied officers consent to search the vehicle. Officer Canada deployed K-9 Argos around the vehicle and Argos positively alerted that illegal narcotics were in the vehicle. During a subsequent search, heroin was located inside the vehicle. This was Argos' first heroin find outside of training. Heroin is an extremely addictive and dangerous drug. Heroin is not a prevalent drug in the Des Moines area as of right now but it is reaching epidemic proportions on the east coast of the United States.

- On June 12, 2014 Officer Canada and K9 Argos were part of a narcotics investigation in the Walmart parking lot. Argos alerted on a vehicle and during a search of the vehicle 63.4 grams of marijuana (street value $1,200), 20 grams of methamphetamine (street value $2,400), and $1,500 in cash were seized.

- On June 21, 2014 K9 Argos was deployed during a takedown on a suspect with an outstanding felony warrant. The suspect was also in possession of one ounce of marijuana. The suspect immediately complied with officers when he realized that a K-9 unit was on scene. The suspect later told officers he would have run if there had not been a canine standing by.

- Officer Canada and K9 Argos were called to assist the Norwalk Police Department on June 22, 2014. A suicidal subject fired a shotgun outside of his residence and then fled on foot. K9 Argos was deployed to track this subject to ensure he didn't cause harm to himself or anybody else in the community. Argos successfully tracked the suspect for 1.6 miles. Argos apprehended the subject hiding under a box truck on private property. The subject did not initially comply with officers' verbal commands and was bit by Argos during the apprehension. Once the subject was bit he immediately surrendered. The majority of the above track was over hard concrete surfaces. It is more difficult for a K-9 to track a person on concrete due to the odor/scent not adhering to concrete like it does grass or other soft areas.

This was Argos's third successful "master track" in his relatively young career. Many working dogs never reach a proficiency level of being able to complete a master track during the course of their patrol career. Expert K-9 trainers define a master track as a successful track/apprehension over varied terrain for a distance of greater than one mile. At any given K-9 trial (certification), only a small percentage of police K-9's will be able to successfully complete a master track – even fewer can accomplish it under actual circumstances. K-9 Argos not only successfully tracked a subject over a mile and a half; he did this on surfaces that were not conducive to odor retention. This is just one more example of what an exceptional resource Argos is to our department and what his impact can be on our greater metropolitan area.

We are very proud of both Officer Canada and K9 Argos for their work in this case. The individual involved was located without ever causing serious injury to himself, the officers, or any innocent bystanders. After apprehension the suspect received basic medical care for his injuries and then received the professional help he needed to get through the difficulties he was struggling with at this moment in his life.

Investigations Summary: In June investigators were assigned 3 new cases for investigation, 3 cases were cleared by arrest, 1 case became inactive, 0 cases were cleared exceptionally, and 0 were unfounded. Investigators also made 4 arrests, issued 0 arrest warrants, wrote 0 search warrants, and issued 1 subpoena. At the end of the month there were 14 open cases that investigators are actively carrying over for further follow up.

Notable cases for investigators in June focused on the investigation of forgery, credit card fraud, and stolen property. Each of these cases led to arrest(s), cooperation with area law enforcement and/or the issuance of court orders.

In the first part of June, Detective Pearson was called in to assist patrol officers who discovered evidence of several forgeries occurring by individuals they were interacting with. Detective Pearson worked with the officers to collect evidence and begin piecing statements from each individual together. Detective Pearson learned through his interviews that two offenders were traveling across multiple jurisdictions forging employment checks. At the conclusion of Detective Pearson's investigation, each offender was charged with 8 counts of forgery.

Investigators continued to work another on-going forgery case actively identifying multiple offenders. With the development of corroborating information and probable cause, individuals are being held accountable for their actions and arrested. This month Detective Pearson made one additional arrest in this case where individuals would cash a forged check prior to passing some of the proceeds off to the soliciting party to the crime.

A third investigation during the month of June was the theft of commercial painting equipment. Detective Pearson and Officer Woods were able to use their investigative skills to determine the location of a stolen commercial paint sprayer valued at over $1,000. The property was recovered and returned to the owner. The offender admitted his involvement and was charged with felony theft.

Other cases worked by investigators in the month of June included the sexual exploitation of a minor and two other credit card fraud cases. The sexual exploitation of a minor case was determined to be unfounded as no crime had been committed.

The cases managed by the Investigation section are those that go beyond the typical resources and timeframes available for officers assigned to the Patrol Division. These cases are difficult to solve, often require coordination with outside organizations or jurisdictions, and many times involve

additional subpoenas, search warrants, surveillance, or technical expertise (examples would be burglaries, identity thefts, fraud/forgery, sexual assaults, serious crimes against persons, etc.). Cases that result in a status of suspended have been reviewed and investigated where neither identifiable suspect(s) nor probable cause exists for an arrest.

Additionally, multiple times a month, investigators from the Windsor Heights Police Department collaborate with neighboring jurisdictions to reduce criminal intentions through the use of technology and meetings and also share intelligence information.

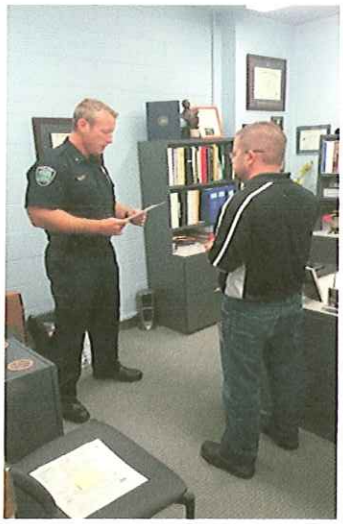
Training Summary: In-service was held on June 4th and June 18th. Officers attended the Des Moines Metro Firearms Qualifications held at Camp Dodge. These qualifications take place annually and afford the opportunity for an officer to get qualified on handguns, shotguns and patrol rifles in short order. Firearms instructors from several metro law enforcement agencies all participate and assist attending officers with getting qualified on their firearms. WHPD sent a firearms instructor on each of the above dates to help out. Officers also obtained a brief training session on emerging issues in regards to the electronic document management system (EDMS).

Detective Pearson and Officer Nissen went to the Polk County Jail for a THREADS training session on June 17th. THREADS is a program within the Securus phone system. This system monitors phone calls to and from inmates at Polk County Jail. These calls are accessible by law enforcement officers. This access is beneficial in investigations; the training was to inform officers about the THREADS program and to demonstrate ways that the program can help officers manage the information they obtain from these jail calls.

Lt. Kendig traveled to Ames on June 20th to attend the Iowa Acts of Interest to Law Enforcement Legal Update Conference. This is an annual event sponsored by the Iowa Attorney General's Office where various speakers highlight legislative changes and judicial decisions that affect law enforcement in Iowa. Lt. Kendig will utilize this information in training for the officers at WHPD.

The Iowa School Resource Officers Conference was held at the Iowa Law Enforcement Academy June 18th through June 20th. Officer Woods attended this conference. This training is discussed in greater detail in the Community Outreach Summary of this report.

Reserve Program: A new Reserve Officer was sworn in on June 27th. Luke Donahe is the newest addition to the WHPD's reserve program. Luke was formerly a reserve police officer with the West Des Moines Police Department for six years. He decided to come to Windsor Heights for more activity/opportunity within our reserve program. WHPD now has two certified reserve officers. A recruiting process for additional reserve officers is just beginning. Our hope is to bring four additional qualified candidates into the reserve program in 2014. Individuals who apply for the program will begin their testing and evaluation process in September. It will take approximately one year for any new reserve officer to be fully vetted, trained and certified.



New Reserve Officer Luke Donahe being sworn in by Chief McDaniel

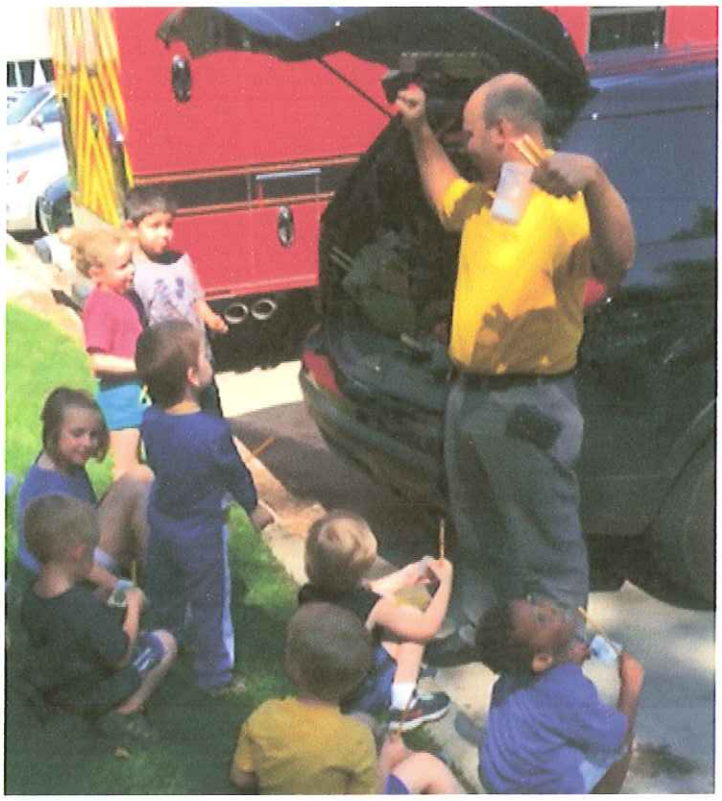
Community Outreach Summary: Community awareness and services for the TCSC focused around 4 different events in the month of June. Traffic & Community Safety Cordinator Officer Amanda Woods was involved with 10 hours of outreach to the public. As the Department strives to partner with the community to provide education and service, Officer Woods worked with Safe Kids of Iowa, the YMCA, Windsor Heights Farmers Market, and the Community Education Council. Additionally, Officer Woods assisted with criminal investigations and further facilitated events during planning meetings.

Officer Woods attended the monthly CPS Fit Station at Bob Brown Chevrolet where 25 car seat installations and inspections took place. Officer Woods inspected 2 seats - 1 participant needed complete education for their installation, care and safety of a child seat; and 1 participant was taught new information on correct installation procedures and education regarding the concerns of flying objects. Child restraints seats can be complex systems to properly install into a wide assortment of vehicles with unique designs and safety features. This is why Bob Brown hosts a monthly fit station where multiple certified technicians gather to accommodate the public.

Lt. Governor Kim Reynolds presented the Governor's Volunteer Award to the Des Moines Fit Station in June. Since Officer Woods is a regular participant at this event, she had the honor and privilege of being invited to participate in the acceptance of this award on behalf of Child Passenger Safety Technicians who serve the public at this location. The Des Moines Fit Station has been the longest running and most active Fit Station in Iowa since 1998.

In the month of June the TCSC hosted a course designed to instill confidence and self defense education in women. R.A.D. (Rape Aggression Defense) instruction was taught over the course of 4 nights at the Community & Events Center. Attendees experienced classroom instruction, repetitive drills and safety tactics, and simulations of attack in a safe environment. The simulation event allows participants to practice and utilize defensive tactics against certified instructors who present themselves as attackers. Attendees walked away from this instruction enjoying the simulations, appreciated the smaller class size, and made statements about being more confident and secure as they head off to attend college.

The Windsor Heights Police Department participated in the Walnut Creek YMCA day camp this year. Officer Woods and Detective Pearson made the day for 24 children. Each child was taught about stranger danger, seatbelt and bike safety. Detective Pearson is shown handing out pencils to each child.



The TCSC also participated in the first Windsor Heights Farmers Market - looking only to "sell" safety education. Officer Woods put a patrol vehicle on display and had a table with resources for the various ages in attendance. Education resources included coloring books, bike safety packets, National Night Out flyers, Jr. Detective Flyers, buckle-up pencils, stickers, pens/pencils and note pads.

Officer Woods attended the IASRO conference in the month June. IASRO is the Iowa organization of School Resource Officers. Officer Woods is actively involved in all of the Windsor Heights schools in and around our community and utilized this training opportunity to both network with other metro resources as well as learn about basic themes in the school environment. Detecting dangerous behavior and the dangers of the internet were topics discussed. Instructors gave officers guidance on cues of body languange and the ability to discern if someone is confrontational or becoming confrontational. In the dangers of the internet session, officers were educated about the vast array in which students can communicate using the internet and what resources are available for parents to know what their children are doing.

The keynote speaker for the conference was retired Lt. Col. Dave Grossman who spoke about, "How kids are learning to kill and learning to like it". Grossman is a well known speaker and author throughout the law enforcement community. His topic revolved around the desenitization

of our children through the use of 'realistic' technology and being rewarded for their game-killings.

Officer Woods and Chief McDaniel also participated in a half-day School Safety Summit and discussion hosted by Polk County Emergency Management in June. This event focused in on efforts of collaboration in publc safety as it applies to setting policy and protocols for exercising school safety plans throughout the metro area school districts. The information and discussion was well received by all who were in attendance.

During the month of June, the TCSC also disseminated reliable and relevant information to the public; there were 29 social media messages sent to the public. Additionally, the TCSC supplemented the Patrol Division for 10 hours this month.

Automated Traffic Enforcement: The Automatic Traffic Enforcement program continued with its mobile deployments targeting flagrant violators on our roadways (speeders >11mph over the posted speed limit). The intent of this program is to change driver behavior. The TCSC deployed automated enforcement equipment 652 hours in the month of June. There were 513 citations issued with 0 violations being rejected during final processing.

There were 2 citations contested and 2 citations brought before an administrative review hearing. The administrative review board determined 0 citations to be liable, 2 were found not liable and 0 were listed as an 'other' status. An 'other' status is a typical result of a party first contesting a citation but then choosing to pay it prior to the administrative review hearing.

Other News:
From the lighter side of law enforcement, on June 7th officers of the Windsor Heights Police Department and some of our family members participated on a fundraising team with our colleagues from the Warren County Sheriff's Office. Our mission was to assemble a team of 20 participants who competed for the fastest time in pulling a UPS 757 plane! While our strong men and women did not win the challenge we did manage to have fun doing it. We lost the law enforcement challenge by roughly one second to the Story County Sheriff's Office, but our team was voted "best costume" for our compilation of characters we called "the Misfits". At the end of the day 36 teams participated raising more than $112,000 to benefit Special Olympics Iowa.

As always, if you have any suggestions or questions on the programming my department offers, concerns with policing activities we engage in, or thoughts on how we may better serve you, please do not hesitate to contact me.
