Public Works Monthly Report

To: Honorable Mayor, Council Members, City Administrator

From: Jason VanAusdall, Director of Public Works

Re: Public Works Report for the Month of December

Significant Events:

- LED Stop Light 'Phased- In' bid process is completed. A report identifying costs, recommendations and procedures will be issued after the 1st of the year.
- Street Sweeping has been completed for 2009; we have 1 more year in the contract for Speck.
- Bike path behind 'City Wide' was the focus of a drainage project late this fall (see picture).
- A trash cleanup program has been established between W.H. & Sams / Walmart, I hope you will notice the lack of trash in that area.
- A new Public Works Laborer Position was filled. Dan Sinclair, from the fire department will start on January 4th, 2010. We look forward to having him aboard!
- The amount of snow we have received in December (28") has been a constant source of work/maintenance for the staff. Both plows have needed to be taken in to be re-welded. We have had to re-stock with sand/salt 2 times this month. Overall though, I think we have had a successful month of keeping up with the amount of snow we received. Warm weather to melt some snow would be welcomed!!

Completed Drainage Project – Bike Trail behind 'City Wide HVAC'
