## Public Works Monthly Report

To: Honorable Mayor, Council Members, City Administrator

From: Jason VanAusdall, Director of Public Works

Re: Public Works Report for the Month of January, 2010

---

### Significant Events:

- The amount of snow we have received this year (56") has been a constant source of work/maintenance for the staff. We have made the top ten list for the most snow fall ever recorded in Iowa---EVER. This is not the kind of records we like to break... We have had to re-stock with sand/salt 2 times this month. Our last batch of salt was purchased from West DSM, we ran out. (165 ton = \$11,500.00) Overall though, I think we have had a successful month of keeping up with the amount of snow we received. Warm weather to melt some snow would be welcomed!!
- Dan Sinclair has started in P.W.-he is a welcomed and needed part of the team!!
- All streets are showing the signs of distress from the weather/plows!!
- We appreciate the decreased number of citizen complaints about the snow removal; we are doing the best we can.

### 'Ice Damming'

Please take the proper precautions against ice damming on your home, this is not something to ignore. Research the best precautions/solutions to prevent costly repairs to your home.
