

**BUSINESS OF THE CITY COUNCIL
WINDSOR HEIGHTS, IOWA
AGENDA STATEMENT**

Item No. 10
For Meeting of 08/03/2009

ITEM TITLE: Public Hearing regarding proposed public improvements on 73rd Street

SUMMARY EXPLANATION

The City has been awarded \$537,640 to resurface the entire length of 73rd Street in Windsor Heights as part of the economic stimulus package. These funds have enabled the City to undertake the 73rd Street project. The funds are to resurface 73rd Street from Center to Hickman and the total project will cost \$737,123.50.

Additionally, the City contacted Clive regarding the stretch of Buffalo Road between 73rd Street and the railroad tracks. The cost is \$31,482 to resurface this portion. The majority of this cost would be borne by the City of Clive, however a fraction of the cost would rest with Windsor Heights, as the first sixteen feet is Windsor Heights city limits. The City of Clive would reimburse Windsor Heights for their portion of the project. Based on square footage, the engineer estimates the cost to Windsor Heights to be approximately \$3,500 and the remainder to Clive.
