CITY OF WINDSOR HEIGHTS, IOWA
2014 PAVING PROGRAM, PHASE 2
CHANGE ORDER NO. 1

Enclosed are three copies of Change Order No. 1 for mobilization, traffic control, HMA and PCC hand work patching and miscellaneous associated work to remove and rebuild a deteriorated intake adjacent to the sidewalk along 73rd Street at Colby. This stretch of sidewalk is being replaced due to adherence to current ADA requirements. The new intake and sidewalk are being configured to accommodate the new grades and replacement of the intake. The intake work needed to precede the new walk construction. City Staff gave initial approval for this work due to its interference with the required sidewalk work. We recommend approval of Changer Order 1.

Please review and if your are in agreement, please execute all three copies and return all three copies to our office for further processing.

If you have any questions or need additional information please contact us at 225-8000.
