We already have the same type of store on almost every corner in WH as well as the surrounding area. Surely there is something else that would be more desirable. In addition the corner of 63rd and Hickman is a vert high traffic area, Norma Klein

Doesn't the DOT have some jurisdiction over this decision since Hwy 28 is part of this interchange? Hopefully no one shops at this store (or any of your businesses) because of your crooked mayor and speed traps. I've never decided which is worse---Windsor Heights or University Heights (hey, a match!) for being an enclosed suburb that relies heavily on traffic ticket revenue. I know people in charge turn their noses and claim 'BS', but there is, in fact, a large contingent of people who refuse to do business in Windsor Heights because of it.

I think it would be a mistake to build a Quik Trip on this corner as it would create to much congestion, and would become a traffic nightmare.

Subject: QT at 63rd & Hickman

Hey Sheena!

Just my 2 cents about the QT at 63rd and Hickman. I'm 100% in support of a new QT there. QTs seem to be clean, convenient, but above all, friendly and professional staff. QT seems to be a good employer to attract and retain great employees.

Not that I would oppose them, but Casey's and Kum & Go employees just don't seem to be as friendly, helpful, or professional in appearance. We try to vote with our dollars and prefer QT for this very reason.

Anywho, have a good weekend!

Hello,

I live in Windsor Heights at 6406 Northwest Dr. We live about 2 blocks from this proposed project. I don't know if building this QT will eliminate the possibility of building a park on at least a portion of the Windsor Crossing Plat, but would ask that this be considered. Our neighborhood has almost no sidewalks, and is more than a mile from the nearest green space.

Green space is desperately needed and the big "Windsor Heights" sign that was recently constructed on the corner of 63rd and Hickman would look very nice in front of a park. It would look awful in front of QT.
