Subject: FW: lateral information

Below is an updated cost estimate that we have received from Hydro Klean, which is a sewer televising service. They are providing an estimate of \$200/lateral for televising from the sewer main.

Phase 1	11 households	\$2,200
Phase 2	10 households	\$2,000
Phase 3	16 households	\$3,200
Phase 4	28 households	\$5,600
Total	65 households	\$13,000

This would be a cost that would be borne by the city, but could be used to qualify what households have Orangeburg and which do not. Therefore establishing in a proactive position who will need to do what by the time that the street is repaved.

I believe this is something that would be in the best interest of the city to proceed with.

Please let us know if you have any questions

Jason
